

History of mobile OSes

Many smartphone and mobile OSes followed up

- Palm OS (2001)
- Windows CE (2002)
- Blackberry (2002)

One more thing ...

Introduction of iPhone (2007)

- 4GB flash memory, 128 MB DRAM, multi-touch interface
- runs iOS only proprietary apps at first but App Store opened in 2008, allow third party apps
