

Projects deliverables and grading

1. Automated tests

- All tests are given so you immediately know how well your solution performs
- You either pass a test case or fail, there is no partial credit

2. Design document

- Answer important questions related to your design for a lab

3. Coding style

- Code must be easy to read and follow coding style guidelines
- The TA will conduct a code review

The red line between collaboration and plagiarism

✓ Collaboration is allowed

- you can explain a concept to someone in another group
- you can discuss algorithms/testing strategies with other groups

⦿ Plagiarism is not allowed

- you cannot discuss specific implementation details
- you cannot look at other people's solutions, including solutions online (e.g. GitHub)
- you cannot publish your own solution online (even after the course term)

◆ Looking for materials is tolerated

- you can look for snippets of code online as long as this piece of code does not directly answer your a specific problem of the assignment
- if you copy more than 5 lines of code, put the source url as a comment in your code
- if you use more than 25 lines, do not copy it
